REMARKS

As required in the Notice of Incomplete Nonprovisional Application, a Substitute Specification is filed herewith. This Substitute Specification does not add new matter.

In addition, Figures 1-3 are added to the Substitute Specification. Figures 1-3 were part of the parent application, Application Serial No. 10/030,459, filed on January 11, 2002, and that application in its entirety was incorporated by reference in this application as indicated in the transmittal letter filed June 25, 2003. As noted in the Manual of Patent Examining Procedure at § 2163.07(b): "The information incorporated [by reference] is as much a part of the application as filed as if the text was repeated in the application, and should be treated as part of the text of the application as filed. Replacing the identified material incorporated by reference with the actual text is not new matter." Therefore, these drawings do not add new matter.

If there is any fee due in connection with the filing of this Preliminary Amendment, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
